Introduction :

LG Chem's non-animal origin HA has been marketed in various medical fields since 1995 with proven safety and efficacy. Its high molecular weight HA has been approved by European Directorate for the Quality of Medicines and its drug master file has been filed to the US FDA.

The YVOIRE line created in the research laboratories of LG Chem. HICE Technology stems from the creative technology YVOIRE.

Advantages :

- Highly Concentrated Stabilized HA
- Minimal use of cross-linkers
- High Elasticity
- Longer Duration
- High Biocompatibility

High modification
Low cross-linking

Moderate modification
Moderate cross-linking

Low modification
High cross-linking

Optimized Injectability for Continuously Flowing, Comfortable and Precise Injection :

- Gel Cohesiveness
- COC Syringe & Ergonomic Grip
- Thin Wall Needles

YVOIRE Classic ⊕ (0.3% lidocaine) :

- Purpose : Tear Trough - Lip Contour - Fine Wrinkle Correction
- Composition: 20 mg/ml Cross-linked Hyaluronic Acid
- Enclosed needles: 27G & 30 G
- Particle size: 400 μm
- Recommended injection layer :Mid dermis
- Lidocaine: Reduces pain during the injection procedure
- Volume per syringe: 1 ml syringe / box

YVOIRE® | classic ⊕

Manufacturer: LG Life Sciences, Ltd., South Korea

Why choose YVOIRE®

YVOIRE in the World

" YVOIRE is being exported worldwide to over 20 countries. "
